O R D E R

On April 3, 1991, the Commission sent notice to East Kentucky Power Cooperative, Inc. ("East Kentucky") that its application, received on March 18, 1991, was deficient pursuant to 807 KAR 5:001, Section 9(2)(b), due to the omission of copies of permits.

On April 17, 1991, East Kentucky filed an amended application and cover letter stating that the subject of permits was addressed in the prepared testimony attached as Exhibit V to its application, and additional detailed information is contained in Exhibit X to the amended application. East Kentucky's cover letter, which the Commission will consider as a motion, requests that the application be accepted for filing as of March 18, 1991, the date it was received by the Commission.

Based on the motion and being advised, the Commission hereby finds that East Kentucky's application, received on March 18, 1991, did not contain all of the information required by regulation and could not be accepted for filing. A review of the additional information filed on April 17, 1991 discloses that

copies of necessary permits have still not been filed but good cause has been shown to grant a deviation from this requirement, pursuant to 807 KAR 5:001, Section 14.

IT IS THEREFORE ORDERED that East Kentucky be and it hereby is granted a deviation from 807 KAR 5:001, Section 9(2)(b), and East Kentucky's application and amended application shall be accepted for filing as of April 17, 1991.

Done at Frankfort, Kentucky, this 10th day of May, 1991.
